

Data Processing Information & Data Protection Declaration

Joint online Workshop PAROMA-MED & TRANSCEND (29th January 2025, online)

Declaration on Data protection

The data processing of this study is carried out in accordance with the data protection provisions of the General Data Protection Regulation (GDPR). The data will be used exclusively for the purposes described in the information sheet.

Purpose of Data collection

The data is used by the PAROMA-MED project to develop its technology. The TRANSCEND project will further develop its toolbox for the integration of citizens' perspectives on the basis of the data. The data will be used for deliverables, presentations and the toolbox document.

The following Data is collected as part of this study

Video and audio recording of the workshop, the chat messages and the answers in a questionnaire following the workshop (in case you participate via survey monkey).

Privacy Policy

All data collected as part of this study is of course confidential and will only be used in a pseudonymized form. Demographic information about you, such as age or gender, does not allow any clear conclusions to be drawn about you. At no time will you be asked for your name or other unique information as part of the study.

Data Storage

All data will be deleted after a maximum of 10 years. The data is stored in a form that does not allow any direct conclusions to be drawn about you, i.e. the data is pseudonymized). This declaration of consent is stored separately and destroyed after 10 years.

Voluntary involvement & rights of the participants

Your participation in this study is voluntary. You are free to discontinue your participation in this study at any time and thus withdraw your consent (revocation) without any disadvantages for you. If you withdraw your participation, no data about you will be stored and all previously available data about you will be destroyed.

Consent

I have read the explanations on the study and agree to participate in the study mentioned.

I agree that the data collected as part of the study may be evaluated for scientific purposes and stored in pseudonymized form. I am aware that my participation is voluntary and that I can withdraw at any time without giving reasons.

Many thanks for your participation!

Contact

If you have any questions or other concerns, you can contact the persons responsible for data processing in this study:
